

ABOUT US

Our official website can be accessed at: <https://www.britannicavip.co.uk>

FEEDBACK

When individuals leave feedback on our platform, we gather the information provided in the feedback form, along with the visitor's IP address and browser user agent string, in order to assist in identifying and preventing spam.

A hashed version of your email address, which is an anonymized string, may be shared with the Gravatar service to determine if you have an associated profile picture. The privacy policy of the Gravatar service can be found here: <https://automattic.com/privacy/>. Once your feedback is approved, your profile picture will be visible to the public within the context of your feedback.

MEDIA AND COOKIES

MEDIA

When uploading images to the website, it is important to avoid including embedded location data (exif gps) in the uploaded images. This is because visitors to the website have the ability to download and extract any location data from the images on the website.

COOKIES

In the event that you leave a comment on our site, you have the option to choose whether or not to save your name, email address, and website in cookies. These cookies are designed to enhance your convenience by eliminating the need to fill in your details again when leaving another comment. These cookies will remain active for a duration of one year.

Upon visiting our login page, a temporary cookie will be set to determine if your browser accepts cookies. This particular cookie does not contain any personal data and will be discarded once you close your browser.

Upon logging in, we will establish several cookies to store your login information and screen display preferences. Login cookies will remain active for a period of two days, while screen options cookies will last for a year. If you choose the "Remember Me" option, your login will persist for two weeks. However, if you log out of your account, the login cookies will be deleted.

In the event that you edit or publish an article, an additional cookie will be saved in your browser. This cookie does not contain any personal data and simply indicates the post ID of the article you have recently edited. It will expire after 1 day.

DATA SHARING PRACTICES

Rest assured that we do not share any of your data with third parties.

EMBEDDED CONTENT FROM EXTERNAL SOURCES

The articles published on this website may contain embedded content such as videos, images, or articles from other websites. When embedded content is present, it functions as if the visitor has directly accessed the respective external website.

It is important to note that these external websites may gather information about you, utilize cookies, incorporate additional third-party tracking mechanisms, and monitor your engagement with

the embedded content. This includes tracking your interactions even if you have an account and are logged in to that particular website.

DURATION OF DATA RETENTION

When you post a comment, both the comment itself and its associated metadata will be stored indefinitely. This is done to facilitate the automatic recognition and approval of any subsequent comments, eliminating the need for manual moderation.

In the case of users who register on our website (if applicable), we will also retain the personal information they provide in their user profile. All users have the ability to view, modify, or delete their personal information at any given time, with the exception of their username, which cannot be changed. Additionally, website administrators have access to this information and can make necessary edits if required.

YOUR DATA RIGHTS

If you are a registered user or have left comments on this website, you have the right to request an exported file containing your personal data that we have stored, including any information you have provided to us. Additionally, you can ask us to delete any personal data we have about you. However, please note that this does not apply to any data that we are required to retain for administrative, legal, or security reasons.

DATA DESTINATION

Visitor comments may undergo automated spam detection to ensure the integrity of our website.
